

High Pressure "CO²" Suppression System

Fire Extinguishers & Chemical

◀ HIGH PRESSURE "CO²" SYSTEM

- Uni-Body Design has No Cap Joints to Leak
- Low Cost
- Unimpeded Right Angled Flow Path; Low Equivalent Length Permits High Flow Rates
- Removable Valve Seat for Easy, Economical Repair
- Exclusive Simple Piston-Style Seal Incorporates Slave Operation

Part #	Description
0302SI	50 lb. CO ² Cylinder c/ w Master Valve Filled
0303SI	75 lb. CO ² Cylinder c/ w Master Valve Filled
0304SI	100 lb. CO ² Cylinder c/ w Master Valve Filled
0310SI	Manual/Pneumatic Actuator
0236SI	Solenoid Valve Kit 24VDCSTD
0237SI	Discharge Bend c/ w Check Valve
0304SI	Sidewall Nozzle ½"
0230SI	S-Type Nozzle ½"

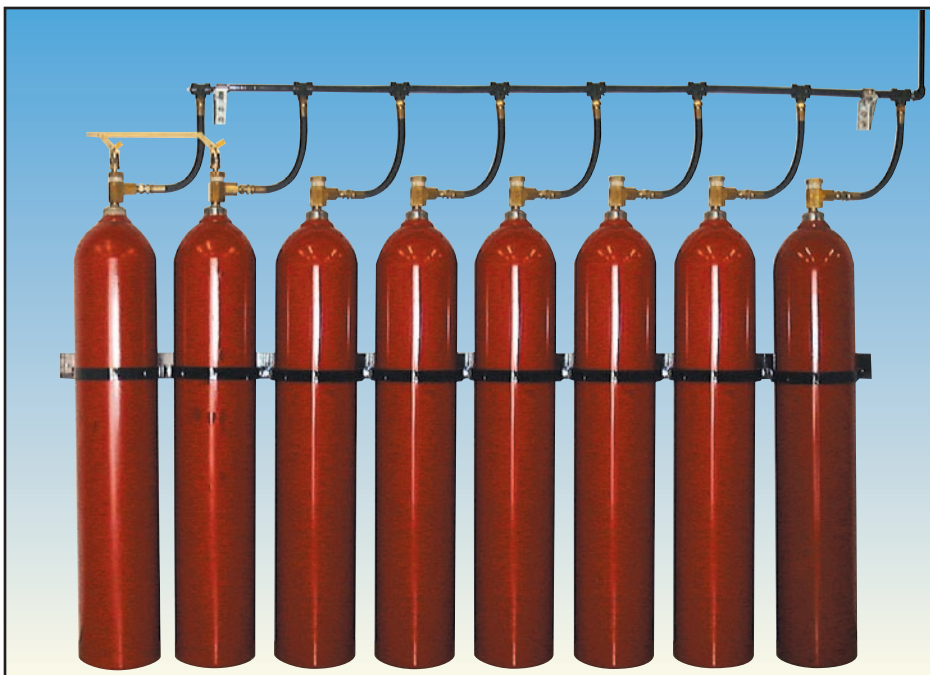

Add Letter 'S' to End of Part # for Slave Valves

"Dry, inert, non-corrosive CO₂ produces no break-down products, leaves no residue, will not damage equipment or materials, and will not contaminate liquids or foods."

IDEAL FOR MANY LOCATIONS

- Flammable Liquid Storage Areas
- Spray Booths
- Printing Presses
- Dip Tanks And Drainboards
- Quench And Mixing Tanks
- Laminating Machines
- Flo-Coat Machines
- Paint Lockers
- Rolling Mills
- Industrial Ovens
- Pump Rooms
- Engine Test Cells
- Diesel Engines
- Hydro-Electric Generators
- Transformers
- Oil Circuit Breakers
- Conveyors
- Dust Collectors
- Fur Storage Vaults
- Exhaust Ducts
- Record Storage Vaults
- Night Depositories
