

ARE YOU IN COMPLIANCE WITH TC TRAINING REGULATIONS OR REQUIRE THE THREE YEAR RECURRENT TRAINING?

****If you are re-qualifying cylinders, any cylinder, High or Low **
Specification Cylinders – Water Jacket/ Proof Test –**

Your Must Be Trained

From the TDG Spring 2005 Newsletter, page 15:

Changes have been made to the CSA B339, this will require Hydrostatic retest facilities to comply with new training requirements. Flame-Tamer offers TC Training complying with TC Standard requirements. The two (2) day course will familiarize and provide you with a better understanding of the standards and the capability of consistently complying with the new requirements. We have trained new personnel with very limited knowledge to those who have been hydrostatic testing for 40 years. Our trainer Dave Dupuis has had extensive background with High Pressure Cylinders and Various Test Apparatus. Mr. Dupuis has also worked directly with the manufacturers on different test machines. Having the experience this course includes instruction on Troubleshooting and Improving System Performance with the advantage of Hands on Training at our Brampton Location.....we don't stop there. We will be available to you even after the course has ended.

**As the only approved Canadian company offering TC Training,
We strictly adhere to Canadian content.**

Space is limited and sells out quickly, so register early! Attendees are responsible for their own hotel accommodations.

If you require further information, please call us at 905-791-3102 or 1-800-268-0146. Please contact Dave Dupuis, dave@flametamer.ca or Sylvia Chirco, sylvia@flametamer.ca
